Zip Archive

Hopefully for the last time, please recreate the Mermaid diagrams and give me a zip file to download

I'll regenerate the diagram Markdown from the uploaded project, package the Mermaid files into a zip, and make the download link point to the newly created archive.

Thought for 49s >

Done: [Download the Mermaid diagrams zip](#)

Hmm. The last set you gave me contained 9 diagrams, but this one has only 5. Are you sure we're not missing anything?

You're right to question it. I'm going to compare the prior/generated package contents against the uploaded project and regenerate a fuller set rather than assuming 5 was enough.

Thought for 42s >

You were right — 5 was incomplete. I recreated the set with **9 diagrams**.
